Mitter

- Improved Customer Experience
- Quieter
- Less Vehicle Movement
- Superior Wash Quality

Defining the World of Car Wash Technology

Corporate Office: 1349 Jacobsburg Road, Wind Gap, PA 18091 | Production Facility: 3370 Fox Hill Road, Easton, PA 18045
Sales: 800.642.9396 | Email: sales@icscarwashsystems.com | icscarwashsystems.com
MITTER FEATURES & BENEFITS

- Angled legs for greater stability.
- Three 120 degrees opposed baskets insure smooth operation and resolves the unsatisfactory issue of having all wash material hitting cars at once.
- Microfiber wash material is quieter and cleans more effectively than cloth.
- Effective at removing “eyebrows” around trim.
- Mechanical action causes the wash material to fall off the back of the car quicker and provides better impact on the rear of the car.
- Quieter, gentler, cleans better and operates smoothly.

REQUIREMENTS & SPECIFICATIONS

- Height: 123 in / 312.4 cm
- Width: 154 in / 391.1 cm
- Maximum Vehicle Height Clearance: 84.8 in / 215.4 cm
- Maximum Vehicle Width Clearance: 80.0 in / 203.2 cm
- Electrical Connection: 3 HP Leeson Motor:
  - Horse Power: 3 HP
  - Speed: 1760 RPM
  - Frequency: 60 Hz (US)
- Supply Voltage:
  - 230 V AC (US)
  - 460 V AC (EU)
- Rated Current:
  - 8.4 FL Amps @ 208 V AC
  - 7.8 FL Amps @ 230 V AC
  - 3.9 FL Amps @ 460 V AC
